# What-if wave

Have you ever thought: "man, I wish x aesthetic was around. Well, now you can write the story of it existing!"

On one calm afternoon, a group of (**silly**) minded people came together to work on a new, never before seen visual style. They **ran**, all afternoon, ensuring that they had all their preparations ready to **gallop** on their whiteboards. "I think it should be **crazy!**", said the first one. "I think it should be **cute!**" Said another. "You're all being silly, clearly it should call back to the **byzantine** era" said the third.. They all **talked** some more, and ultimately came up with something they could be **ecstatic** about. Their new aesthetic style **bottle-wave**, was a remarkable **cup!** With its clear inspiration from **pencils** and its **furry** style, it made waves across the world and was renowned as the most **weird** style on earth.

Another?
